

Tomorrow's Technology Today

Low Voltage Electronic Specialist

TIPS FOR VIEWING THIS PRESENTATION:

1. Take advantage of the built-in **Table of Contents** by clicking on the **palette icon** (show/hide navigation pane) located just to the right of the printer icon. Or you can go up to **WINDOW...** then select **Show Bookmarks**.
2. After selecting from the menu on the left, click on the palette icon once more and the selected section will open full screen for easy viewing.
3. To go to a website on the Internet from this pdf file, right click on the web or email address, then select **"Open Weblink in Browser"**.

The surface mount console features 48 character back lighted LCD display with menu operation, back lighted keys, selectable key click, beeper functions and viewing angle. A two color LED offers status at a glance, red for security armed, green when disarmed. All control, security and programming functions can be accomplished using a console.

The flush mount console is provided with a painted aluminum back box that mounts in the wall. The face of the console snaps into the back box providing a professional, built-in look.
